

Join Us for a Fire Smart Landscaping Workshop!

Attention landscapers and green contractors in Marin and the North Bay area. You're invited to an essential workshop on **Fire Smart Landscaping**, designed specifically for professionals like you who play a crucial role in safeguarding our community against wildfire risks.

WORKSHOP DETAILS

Tuesday, September 24th | 9:00 – 10:30 am

Marin Builders Association Community Room

660 Las Gallinas Ave, San Rafael, CA 94903

(Free parking across street at Northgate Mall)

Free Admission (Includes coffee and light breakfast)

This 1.5 hour workshop will be led by experts in wildfire mitigation from **Fire Safe Marin**, alongside seasoned professionals from the **California Landscape Contractors Association North Coast Chapter**.

WHAT YOU'LL LEARN

Fire Smart Landscape Design Basics:

Discover the best practices for creating a fire-smart yard that protects both property and lives.

Choosing the Right Plants and Mulches:

Learn how to identify plant types that are safer from fire and those that pose the highest risk, and strategies most effective in reducing fire hazards.

Importance of Maintenance to Reduce Risk:

Understand the critical importance of maintaining a defensible space around homes and structures.

WHY ATTEND?

Wildfire Risk Home Inspections and the threat of insurance loss has created an increased demand for fire smart landscaping. Residents are looking for professionals who know what to do to bring their yards into compliance while retaining their beauty and curb appeal.

Stay ahead of the curve and ensure your clients' properties are as fire safe as possible.

REGISTRATION

Please register in advance by using this link (<https://forms.gle/DPRReRGL2smzQEoiT7>) to secure your spot. Don't miss this opportunity to expand your expertise and contribute to a safer Marin.

*Any questions please email info@firesafemarin.org
We look forward to seeing you there!*
