

Your property and properties in your neighborhood have been scheduled for a wildfire risk evaluation.

Here are the types of things inspectors will be looking for:

Clear and trim seasonal vegetation on your property such as:

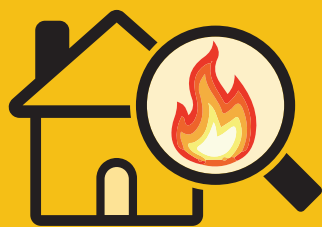

- Dry grasses and weeds
- Dead trees and shrubs
- Leaf litter, twigs and other debris
- Ladder fuels and ensure vegetation has adequate spacing
- Vegetation inhibiting safe evacuation or emergency vehicle response

Remove combustible materials within 5 feet of structures:

- Combustible outdoor furniture
- Jute or natural doormats
- Garbage/recycling containers, lumber, trash, patio accessories
- Vegetation, firewood, lumber and debris
- Under decks and overhangs
- Tree limbs that extend into this zone
- Organic, combustible mulch (replace with stone/gravel)

Clear all leaf litter and debris from:

- Roof
- Gutters
- Decks
- Under bushes
- Near the base of walls
