

COMING SOON TO YOUR NEIGHBORHOOD: WILDFIRE RISK HOME EVALUATIONS

We recognize that the threat of wildfires can be a source of concern, and we want to reassure you that the **Southern Marin Fire District** and **Marin Wildfire** are here to support you. Together, we are dedicated to empowering you to reduce the risk of wildfires through home hardening and defensible space evaluations of your property.

Starting in September, Southern Marin Fire and Marin Wildfire inspectors will evaluate properties for wildfire risk.

[Scan QR code for dates locations.](#)

If you are not at home during the inspection, we will only assess what is visible from the street to your front door.

WILDFIRE RISK HOME EVALUATION PROGRAM

Defensible Space & Home Hardening

Review Your Report.

Your Wildfire Risk Report will be ready to review approximately 24 hours after the inspection. This document will provide you with essential insights into reducing wildfire risks and enhancing your safety.

We encourage you to immerse yourself in your report, explore the findings, and take advantage of the resources available to you.

Review your Wildfire Risk Report online or request a copy to be mailed to you. Reports are available to property owners, renters, and authorized representatives.

Please keep in mind that some actions may be required, and we urge you to begin maintaining the vegetation on your property even before the inspection.

This program is brought to you by Southern Marin Fire District and the Marin Wildfire Prevention Authority, funded by Tax Measure C (2020).
