

Spotlight: Home Evaluations

MWPA NEWS

As of May 9, 2024, the MWPA has conducted 1000+ Wildfire Risk Home Evaluations in San Anselmo's Sleepy Hollow neighborhood and in Larkspur's Sycamore Canyon neighborhood. Wondering if your neighborhood can expect to receive Wildfire Risk Evaluations between Spring and Fall 2024? If you live in the service areas of Marin County, Ross Valley, and Central Marin Fire Departments or the Fire Protection Districts of Kentfield and Southern Marin, [this map](#) illustrates the APPROXIMATE areas we intend to inspect. For information go to marinwildfire.org/dspace.

The inspectors identify wildfire risks to properties. This results in a detailed personalized report that outlines some required action items as well as provides recommendations to reduce your property's risk to wildfire. Your local fire department determines what requires enforcement.
